

Pars

meeting tables

Pars meeting tables connect and network within more varied and stimulating environments. Smartworking Pars meeting tables are available across a broad range of sizes, shapes, finishes and specification options.

Pars meeting tables

Standard Product Information

Legs I frame: I - frame leg consists of a cast aluminium ski with steel column and frame, powder coated silver. It is available powder coated stone as an upcharge. Footspread on tables up to 900mm in width is 600mm. Footspread on tables above 900mm in width is 900mm.

Legs - single leg: The single leg is cast aluminium, powder coated silver or black. Available powder coated stone or polished.

Feet: Both leg options have black, polypropylene glides. These are adjustable up to 15mm to allow levelling.

Top Finish: Table tops are available in melamine and veneer. All tops are pressed on 25mm mdf board.

Melamine - white, maple, oak, cherry, walnut

Veneer - maple, beech, oak, cherry, walnut

Grain Direction: All veneers are crown cut. On single piece tables veneer / grain direction will run the length of the table. On 2 piece tables, grain direction runs widthways. Grain direction is also indicated by the first dimension of the table size.

Top configuration: Please consider access for all size tops, particularly larger tops.

Edge Details - Melamine tops

Square edge - 25mm thick

Chamfered edge - 25mm thick mdf chamfer

Both edges are lipped in 2mm ABS matching the top.

Edge Details - Veneer tops

Square edge - 25mm thick

Chamfered edge - 25mm thick mdf chamfer

Deep square - 38mm thick

The three edges are lipped in 2.5mm solid matching the top.

Aerofoil - 38mm thick, 70mm solid wood edge.

Cable port: A brushed aluminium cable port with hinged lid and black brush strip allows cables to pass through the table top. This is available as an upcharge

Veneered Hatch: A hinged lipped hatch, to match the top finish, allows cables to pass through the table top. This is available as an upcharge on veneer tables only.

Power Box: The power box fixes beneath the table top and contains a power unit and silver grommet. The power unit contains two data CAT-5 and two power sockets.

Cable Tray: There are different cable trays for the I-frame and the single leg base.

I-frame cable tray: The cable tray fits to the crossbar beneath the table top. The cable tray runs the length of the crossbar between two leg frames. This is available as an upcharge.

N.B two cable trays are included on tables with three I-frame legs

Top mounted cable tray: The cable tray fits directly onto the underneath of the tabletop, it is 600mm in length. This is available as an accessory and priced individually.

Leg cable riser: U shaped cable riser snaps to the i-frame column.

Finishes: The power box, cable trays and cable leg riser are steel, powder coated silver or black or stone to match the frame.

Umbilical cable riser: Translucent, plastic rings with a weighted foot allow 4 way segregation of cables.
